EVENING DISPATCHES.

GEORGIA AFFAIRS

ATLANTA, Ga, Jan 18

Special to N Y Tribune

Fifteen members of the House claim that they took the oath under the impression that having entered office after the secession of the State, they were released from the operation of the law.

A committee of Democrats and disaffected Republicans waited on Gen. Terry yesterday to request the submission of the testimony taken before the board, to the Supreme Court of Georgia for the determination of their eligibility by the Court.

A committee of Republicans appointed by an enthusiastic public meeting, also waited on Gen Terry, assuring him of their endorsement of his course

A committee representing the colored members of the Legislature, waited on Gen Terry to-day and expressed fears that if the House was permitted to organize with ineligible members their rights would be endangered — Their resolutions were telegraphed to Washington They ask the President to judge the future by the past Powerful influence is being used to get the authorities at Washington to interfere and stop the military proceeding but thus far without success

Mr Bryant has received a telegram from Senator Edmunds stating that the latter had advised the President and Secretary not to interfere, except to preserve order, that the Governor has power to organize the Legislature and the acts of Congress make it felony for any one to disturb members who choose to take the oath The Governor claims that members have not been disturbed from taking the oath, but that he has the right to interfere and prevent men who have taken the oath and are ineligible from engaging in the work of organization, and they lay the foundation for objections to their admission into the Union and the early settlement of the vexed question of reconstruction

Reports from Chattanooga County, in the northwestern portion of this State, say that on Saturday night a band of 125 men, armed and mounted, surrounded the house of a judge, took him out of bed, and compelled him to sign an order for the release of a prisoner who was in jail, guarded by a small detachment of troops, who had without fighting, yielded to a superior force.

The project of the few disaffected Republicans now is to organize a new party to be called the National Republican party Bryant, Joshua Hill and Safford are at the bottom of the movement

A NEW PARTY

NEW YORK, Dec 20

A new party was organized last night in this city under the name of "The New Democracy" The founders base the party on the fundamental principle of requiring the reference to the people of all laws passed by their Legislature Representatives, as is done in several of the Swiss countries, and besides advocating woman suffrage, favors the running of all the railroads and telegraphs by the Government The meeting was presided over by Mr Leander Thompson and many ladies were present

NEW YORK ITEMS

NEW YORK, Jan 20

Clark's wholesale liquor establishment on Dey Street was seized by Gen Pleasanton, Collector of the 4th District, on the ground that the owner rectified and compounded spirits without a license. Clark took out a license as wholesale dealer, but it is claimed by the Revenue officers that he has done business as a rectifier The property seized is valued at $20,000 Clark will contest the right of the Collector to seize his establishment

It is stated that the strike of the Erie Railroad operatives will be a general one, as committees left last night for various places on the road to inform the workmen as to the state of affairs in the Jersey City shops. The strikers have issued an order to the public in support of their movement The Company refuse to concede any terms to them

The Tribune says the amendment to the Virginia bill, adopted by the Senate yesterday, will have the effect of sending the bill back to the House and give Butler a chance to kill it It says this action is in defiance of the expressed popular will

CABLE NEWS

London Jan 20—The Times of this morning has an article four columns long, reviewing Mrs Stowe's new book on the Lord and Lady Byron matter. The author admits the likelihood that Lady Byron was deceived by her husband's inveterate passion for mystification, and really believed him incestuous

Paris, Jan. 19 Copies of certain Belgian journals, intended for circulation in France, have been intercepted and seized by the French authorities. This fact coming after the declaration that foreign journals were to be freed from censorship, excites much surprise and the radical journals charge the Governor with inconsistency and bad faith

The preliminary examination in the case of Prince Pierre Bonaparte, charged with the murder of Victor Noir, has commenced before the Police Court and will probably be completed this week M. Rochefort has been summoned to appear before the Court on Saturday as a witness in the case. The high Court of Justice will be convened in a few days to try the accused

MISSISSIPPI U. S SENATORSHIP.

NEW YORK, Jan. 20

A Jackson, Mississippi, dispatch of last night states that the Legislature after several ballots failed to elect to-day a United States Senator for the short term. Mr. Revels of the Senate, and Mr. Spulman of the House, both colored men, are contesting for the prize, the advantage being in favor of Mr. Revels, who will certainly be elected to-morrow.

General James H. Carleton, who has a command in Texas, perpetrates the following in General Orders No 1. "The officers and soldiers serving in San Antonio know that that city is one of the quietest and most orderly in the United States, and never are seen wearing arms except when upon their professional duties On rare occasions a soldier from other stations, not understanding that the disfiguring one's person with a revolver is unfashionable in this community, is seen troubling himself to carry one about. This must stop None but people with bad taste go armed in time of peace in Christian countries, and United States soldiers should like to have the good fortune never to be reckoned in that class"

A notorious assassin who had frequently escaped justice, was taken at last, having just committed a most unprovoked murder "Why did you kill this man?" asked the judge; "he had not harmed you, and the murder could do you no good." "Oh," replied the prisoner, "it was only to keep up my reputation."

JOHN H. LYNDE, - - PROPRIETOR.

FRIDAY JANUARY 21, 1870

SHALL WE HAVE A WINTER HARBOR?

Bangor has for many years felt the need of a winter harbor to enable her traders to compete for the wholesale trade of the interior. It feels this need with peculiar force now that the interior is being brought into relations so intimate by the system of railways in progress and prospective. If in the limited requirements of the past we have been able to hold our own in the competition of the various markets, the more extended field for traffic now at our command demands that Bangor should no longer neglect any reasonable opportunity to increase its facilities to accommodate a vastly greater business. Our citizens are almost unanimous in the belief that we must soon have a winter harbor at some practicable point on the river in order to maintain our relative importance in the commercial world, and certainly the necessity cannot be doubted by any, if we would make Bangor what it is naturally destined to be, the commercial metropolis of the larger part of the State.

The question comes to us, how can we best obtain this advantage? And then follow others—what will a winter harbor cost us? and what are we willing to pay? For it is too late in the day to expect that enterprises of this sort can afford to wait upon private capital, interested municipal corporations must to some extent at least shoulder the responsibility and expense of internal improvements.

A few days since we published a memorial of the Winterport Railroad Company asking the aid of Bangor in constructing their road from this city to a safe winter harbor. That memorial sets forth that the Company require additional subscriptions to its capital stock to the amount of $50,000 and asks that Bangor in its corporate capacity take that amount of interest in the work. The City Council has responded by calling upon the citizens to vote upon that question on Monday, the 31st day of this month. It is now for the people to decide whether the contemplated road offering us a winter harbor is worth the amount asked of the city — We put it in its most unfavorable light, because the contingency may arise by which the whole subscription might be an outlay.

The Directors in their memorial promise that Bangor shall not be asked for any further subscription, that the northern terminus of the Road shall be within the city limits and that no portion of our subscription shall be paid till the entire Road is completed in a first class manner and ready for the rolling stock. These terms being guaranteed, of course all danger of being called on for any expenditure over and above the subscription and the discount upon our bonds is precluded.

In this view, Bangor is asked to pay fifty thousand dollars for the benefit of a railroad to Winterport, insuring us an excellent harbor the year through. The friends of the Road have confidence that the stock will be valuable beyond the average anticipation, before many months after its completion, and therefore that the expense to Bangor will be merely nominal, as of course, whatever we are able to realize upon the stock, to that extent decreases our outlay. But we ignore this favorable view, and ask if this Railroad scheme is not worth to us more than fifty thousand dollars?

We look upon the enterprise simply as it concerns the public, and not as a private speculation. We believe the enterprise is worth fifty thousand dollars and that the sooner we secure it at that figure, the better for Bangor. Our people have only been waiting a favorable offer of a tangible, safe scheme, and it seems at last to be presented. If the Winterport Railroad Company act in good faith upon the terms they offer, as we have no doubt they will, we think Bangor can well afford to invest the amount required. Believing thus, we hope that our citizens will vote to subscribe to the stock of the Winterport Railroad, thus securing the great advantage to our business of a valuable winter harbor.

At a meeting of the Board of Education in Augusta, on Tuesday, the question being under discussion, Should the employment of teachers be transferred to the Superintending School Committee, Messrs. Abbott of Franklin, Webb of Cumberland, Plummer of Penobscot, Corthell of Washington, Sleeper of Aroostook, Glidden of Lincoln, and Stetson of Androscoggin—all took the affirmative view, and expressed themselves very decidedly against the plan of putting so much responsibility in the hands of irresponsible agents. Indeed the Board was unanimous in recommending a change in the manner of employing teachers so as to avoid favoritism and inefficiency. This was followed up in the evening by an address by Supervisor Luce of Waldo upon School Supervision, in which was shown the needs of, (1), a State Board of Education, (2) a County Board composed of a member of the State Board and the local supervisors, (3) a town Board, composed of a town supervisor with two or more advisers, to which agencies should be given the whole control of of the schools.

We are glad that the managers of our school system are taking hold in earnest in the matter of school reform. One of the greatest sources of evil in our schools is the agency system, which makes country school teaching a lame farce. We trust the Legislature will follow up these recommendations with practical reform.

No one who reads the dispatches from Georgia, samples of which we give to-day on our first page, can fail to appreciate the necessity for care in the reconstruction of any State that has been under the control of rebel Democracy. Mingled Legislative outrages, political treachery, and mob law at the hands of the Ku-Klux-Klan, have served to entertain us for a long time in the line of Southern reading. Georgia has had more than its share of those blessings which so forcibly remind us of the beneficence of Democracy. Left to the rule of her citizens, with no terrorism, there can be no doubt that that State would to-day accept reconstruction in good faith. But the old slave-lords have such a complete control through the fear that overcomes their former serfs, that no honest opinion can at present be had except under military protection. The present differences in which a carpet-bag Republican appears in the ranks of Democracy to give them plausibility only goes another step towards proving the entire unsoundness, the treachery of the Democratic leaders.

A * in the Democrat, who evidently isn't a bright particular star, gets nervous over a solitary contemplation of the course of the Whig. As we don't publish a paper for the sole delight of the hearts that "smile" about the Central Street rendezvous, perhaps that fact may reconcile, if it don't please him.

The Times' Havana letter of the 15th inst. says: "The wholesale destruction of plantations in the Cinco Villas district appears to have been ... every plantation in the vicinity of ... is growing sugar, and all from Cienfuegos eastward. An immense meeting in favor of Cuban independence was held Wednesday evening at Cooper Institute, New York. Many prominent citizens were on the platform. Horace Greeley presided and made a speech favoring belligerent rights to Cuba. He also announced that Gerritt Smith had contributed $1,000 to the cause of Cuba. Cassius M Clay made a speech relating mainly to himself and was in consequence not favorably received. Addresses were also made by Col Tomlinson and others. Resolutions were read by Mr Clay and adopted expressing sympathy for the Cubans and urging the administration to recognize their belligerent rights. The Chairman read a resolution favoring the establishment of a Cuban charitable aid society, which was adopted and the meeting soon after separated.

Wednesday morning warrants were issued for the arrest of some thirty merchants doing business in New York city, who are charged with not paying the special tax levied upon their business. Warrants were issued also for the arrest of twelve citizens who had not paid the amount of their income tax. This action was taken at the instance of the Collector of the district.

WASHINGTON NEWS

WASHINGTON, Jan 19

THE NEW TARIFF AND ITS PROSPECTS

The Committee of ways and means gave another hearing to the parties in favor of free coal, thus showing that they do not regard the question relating to it as fully closed. One member said this morning that the bill would be reported next week, and probably be called up in the House for discussion about the seventh or eighth of next month. Another member said the high tariff men in view of the way public sentiment is changing, were undecided what it would be best to do, and he was of opinion that final action on the bill by the House would not be had for two or three months. The West will be nearly solid against any increase of rates on leading articles and present a strong majority for reduction on many commodities, and several Eastern men will oppose some of the Committee's principal recommendations.

THE SHIPPING INTEREST

The House Committee on our shipping interests to-day received a long letter from Consul Morse at London, giving some interesting facts and figures bearing on the questions under investigation. One of the proposals before the Committee on which they look with some favor is that for encouraging three lines steamships by giving them part of the postage money and something from the naval appropriation, so that no additional expense will be made to the government. They are not fully decided yet what to recommend, and cannot bring in their report before the last of next week, if as soon.

PROPOSED AMERICAN STEAMSHIP LINE TO EUROPE

Messrs C K Garrison, Rufus Ingalls and Alfred Reed, representing the United States Mail Steamship Company, are here from New York to get aid from Congress in establishing a line between this country and Europe. They propose taking five naval steamers of large size, changing them in some respects and then paying a fair price in installments, the vessels are to run weekly, receive $20,000 subsidy for each round trip, and carry the mails free. They think they can get the line in operation within six months, and that it will be of great benefit to the country. The House committee on commerce is looking into their proposition.

EFFECT OF MR DAWES' SPEECH

Mr Dawes's speech has fallen like a bombshell in certain quarters, and the Logan Island men are especially irritated by it, asserting that some of his figures are wrong. This may be so, but the better class of politicians here commend Mr Dawes for having so fearlessly probed some of the ulcers of the body politic. He has given the naval spendthrifts a broadside, and Gen Logan will soon look after the army, especially the bureau officers here, who manage to get double and often treble what is paid to the bureau officers in the Treasury Department.

MISCELLANEOUS

A convention of the delivery clerks in the Post Offices of the country is proposed to come here farnked as special agents to instruct Congress how to increase the Revenue of the Post Office Department.

Fisk, Jr, notified Mr Ordway, Sergeant at Arms of the House, that he will be here on Saturday to testify about the gold conspiracy.

The salaries of all Government officials are subject to reduction. The clerks have no hope of the least increase this year.

POLITICAL AND PERSONAL

It is believed that the adoption of the Fifteenth Amendment would add twenty thousand colored men to the voting population of Missouri.

A Georgia Democratic paper says its party in that State has not so sadly needed a sensible leader within the memory of the oldest inhabitant.

A resolution was offered in the Albany Legislature that a committee be sent to Portland to attend the funeral of Mr Peabody.

Texas, the San Antonio Herald says has never bowed her neck, and never will either to golden-decked tapestry, or brass buttoned dignity.

Governor Padelford, of Rhode Island told the Legislature all he wanted to in a message not two colums long. The Governor of Maryland found twelve colums necessary and the Governor of Pennsylvania needed even more than that.

The Selma (Ala.) Messenger approves of Mungen's repudiation notion. It rejoices that there is at least one member of Congress claiming to be a democrat who is a democrat on principle." The Messenger does not seem to have a favorable opinion of those democrats who are democrats only on "interest".

The Kentucky House of Representatives passed on Friday, the bill chartering "The Abraham Lincoln Lodge No 6, of the American Protestant Association" at Covington without amendment. Jesse D Bright fortunately had not enough sympathizers to prevent it.

The Texas Legislature has ten negroes—two in the Senate and eight in the House. According to General Reynolds, the Senate will consist of eighteen Republicans and twelve Democrats, the House of Representatives of fifty-one Republicans and thirty nine Democrats.

The Richmond Dispatch admits that the blacks exhibited the rarest example of gentleness and fidelity amidst the convulsions of a revolution—and a revolution involving their own freedom—to be found in history. But it looks upon the fact as an enduring proof of the civilization to which they were elevated under the institution of slavery in the South.

Some citizens of St. Paul, Minn., offered Governor Austin, on New Year's Day, the use of a furnished dwelling house, rent free, during the year, but he declined the proffered gift, saying, he thought that if an officer of the State could not maintain himself upon his salary and his private means he should resign.

A Valparaiso merchant recently receiving a challenge from an officer with whom he had quarrelled, sent back this answer:—"I have no desire whatsoever to kill you, still less do I desire to be killed myself. Here is what I propose. Go to the nearest wood. Choose a tree about as thick as myself, place yourself fifty, thirty, or even fifteen steps from it—just as you like—and then fire bravely on the tree. If you hit it, I will admit that I was in the wrong, and will offer you an apology. In the contrary case, I shall be ready to receive yours."

WHAT IT COSTS TO MANUFACTURE PIG IRON.—A Supplementary Statement by Commissioner Wells. On the 12th of January Hon W D Kelley presented a petition in the Federal House of Representatives from several of the largest Iron manufacturing companies in Pennsylvania wherein they assert that the statement in the last Annual Report of the Commissioner of Internal Revenue respecting the average cost of the manufacture of one ton of pig iron viz $24 to $26 per ton is erroneous and a dangerous guide to legislation, the average cost at their manufactories for the year 1868 being $29 10½, and in the first six months of 1869 $29 63. They ask therefore, that Congress will make a special and searching inquiry for the data on which the Commissioner has based his statements, and also into the accuracy of their own statements. To this the Commissioner has returned a prompt response without waiting to be called on officially supplying the data called for by the petitioners. He first alludes to the difficulty he experienced in gathering information on the subject manufacturers displaying great reluctance to furnish statistics of their business. He then quotes from a Mr G T Lewis, of Clarksville, Tenn, an experienced iron manufacturer, who gives the average cost of a ton of pig iron in localities lying directly upon railroads completed or being built, at $16 90, the cost in Nashville he puts at $22 00. Mr Lewis says it can be made on the Nashville and Chattanooga Railroad and delivered in Nashville at a cost of $19 per ton. In a pamphlet on the "Resources of Missouri," published during the past year by Prof. S Waterhouse, of the Washington University, Missouri, and fully indorsed as accurate by the Governor of the State and the St. Louis Board of Trade, the cost of one ton of pig iron at Carondelet, Mo., is set down at $25, this being copied from the books of the company. To show the pertinence of the above facts on the manufacture of iron in the anthracite regions of Pennsylvania, the Commissioner quotes from the report of Abram S. Hewett, Esq., Commissioner of the United States to the Paris Exposition in 1867, a practical iron-master of of many years' experience, to the effect that the cheapest region for the manufacture of pig iron, as yet extensively developed, is on Lehigh river, in the State of Pennsylvania, where taking coal and ore at their actual cost of mining, pig iron is produced at an average cost of $24 per ton.

These statements have long remained unchallenged, and the Commissioner does not see why his confirmatory statement should excite ill-temper and suggest the employment of British gold. The Commissioner makes further citations, one from a firm in Eastern Pennsylvania, in which the profit on pig iron is set down at 150 per cent. with the further declaration that pigs can be made from $22 to $23 per ton, and then pay a good profit.

Mr Wells congratulates himself, in conclusion, that on the petitioners' own showing, the cost of pig iron in the anthracite district of Pennsylvania does not exceed $30 per ton, currency, and hence that a duty of three dollars per ton is more than sufficient to place the manufacturers of the highest cost pig iron in the United States on a basis of perfect equality with their foreign competitors (the average price of standard Welsh pig iron in Great Britain being equivalent to $21 73, American gold, or $26 00 in currency), and to afford a ... A Maryland State Senator has introduced a bill requiring persons purchasing goods in Maryland, to be disposed of out of the State, to take out a license. Baltimore merchants are consequently in a tantrum. They demanded a tax on "drummers," and think this rule good, but one which will not work both ways.

CHICAGO. A correspondent writes: Real estate business is reported quite heavy—$789,000 last week. From what I know of the general stagnation, however, I am inclined to think that a goodly portion of this is covered by fictitious transactions. Money is yet close, and business has relapsed into its usual mid winter dullness.

New Method of Extracting Teeth Without Pain

DR. L. T. WASGATT.

Surgeon Dentist,

Has purchased an apparatus for producing local anesthesia by the vapor of ether, invented by the celebrated Dr B W Richardson of London.

By using this instrument, the patient gets rid of the dread of inhaling ether, for the spray is only applied to the teeth and gums, and does not affect the patient in the least. Dr WASGATT has been using the ether spray for the past few weeks with marked success extracting six to eight teeth at one sitting and his patients say they never will take ether when they can get the ether spray applied to the gums.

Dentistry in all its branches done in the most workmanlike manner at his office No 2½ Kenduskeag Bridge Bangor, Maine. nov17 3m

(Opposite Revere House) BOSTON

THE Trustees of this Institution take pleasure in announcing that they have secured the services of the eminent and well known Dr A H HAYES late Surgeon U S Army, Vice President of Columbia College of Physicians and Surgeons &c.

This Institution now publishes the popular medical book entitled "*The Science of Life, or Self Preservation*," written by Dr Hayes. It treats upon the Errors of Youth, Premature Decline of Manhood, Seminal Weakness, and all Diseases and Abuses of the Generative Organs. Thirty thousand copies sold the last year. It is indeed a book for every man—young men in particular. Price only $1,00.

This Institution has just published the most perfect treatise of the kind ever offered the public, entitled *Sexual Physiology of Woman and her Diseases*, profusely illustrated with the very best engravings. This book is also from the pen of Dr Hayes.—Among the various chapters may be mentioned, The Mystery of Life,—Beautiful offspring,—Beauty, its value to woman,—Marriage,—General Hygiene of Woman,—Puberty,—Change of life,—Excesses of the Marriage,—Prevention to conception, &c. In beautiful French cloth, $2 00; Turkey Morocco, full gilt, $3 50. Either of these books are sent by mail, securely sealed, postage paid, on receipt of price. ... [illegible]

Consumption.

The Three Remedies "SCHENCK'S PULMONIC SYRUP" for the cure of Coughs, Colds, Bronchitis and every form of Consumption. The peculiar action of this medicine ripens the ulcers in the lungs, promotes the discharge of the corrupt matter by expectoration, purifies the blood and thus cures Consumption, when every other remedy fails.

"SCHENCK'S SEA WEED TONIC," for the cure of Dyspepsia or Indigestion and all diseases arising from Debility. This tonic invigorates the digestive organs, supplies the place of the gastric juice when that is deficient and then enables the patient to digest the most nutritious food. It is a sovereign remedy for all cases of indigestion.

"SCHENCK'S MANDRAKE PILLS," one of the most valuable medicines ever discovered, being a vegetable substitute for calomel, and having all the useful properties ascribed to the mineral, without producing any of its injurious effects.

To these three medicines Dr J H Schenck, of Philadelphia owes his unrivalled success in the treatment of Pulmonic Consumption. The Pulmonic Syrup ripens the morbid matter, discharges it, and purifies the blood. The Mandrake Pills act upon the liver, remove all obstructions therefrom, give the organ a healthy tone, and cure Liver Complaint, which is one of the most prominent causes of Consumption. The Sea Weed Tonic invigorates the powers of the stomach and by strengthening the digestion to a normal and healthy condition improves the quality of the blood, by which means the formation of ulcers or tubercles in the lungs becomes impossible. The combined action of these medicines, as thus explained will cure every case of Consumption, if the remedies are used in time and the use of them is persevered in sufficiently to bring the case to a favorable termination.

Dr Schenck's Almanac, containing a full treatise on the various forms of disease, his mode of treatment and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office No 15 North Sixth street, Philadelphia Pa.

Price of the Pulmonic Syrup and Sea Weed Tonic, each $1 50 per bottle or $7 50 the half dozen. Mandrake Pills, 25 cents per box. For sale by all druggists and dealers.

WASHINGTON, Jan 20

The Committee on Banking to-day examined Charles J Osborn and Mr Bocock, brokers with reference to the gold panic.

The Woman's Suffrage Convention re-assembled this morning The hall was crowded Among those present was Senator Wilson who upon being invited to address the convention, made a speech, in which he stated that whenever he had a vote to give it would be given to remove any burden from the people and to grant the same rights to women that men possess

Mrs Stanton said that she was very glad the Senators were coming forward to a position in the front ranks of the women's Grand Army of the Republic

Senator Tipton was called on to address the convention, but he said he came to listen, not to speak

Mrs Rachel Moore Townsend of Philadelphia, Mrs Pamelia W Davis of Rhode Island, and other ladies also spoke all of whom have hitherto addressed the convention

A resolution presented on the first day's meeting in favor of a 16th amendment so the Constitution providing for female suffrage, was discussed and adopted The convention then adjourned till this evening

CUBAN AFFAIRS

NEW YORK Jan 20.

A letter from Matanzas of the 31st, states that when the Spanish gunboats arrived at Havana, only two were seaworthy The machinery upon one half of them is unserviceable the boiler plates being burned and the engines having been worked at a high pressure with salt water during their trip The engineers and firemen shipped in New York were not treated well by the Spanish officers on the voyage, and the agreement entered into with them was not carried out honorably The men were landed at Havana with not enough money to pay their passage back to New York and they could not obtain any redress from Consul Hall the matter being out of his jurisdiction Several had been taken at half price on steamers for New Orleans and Philadelphia. All the gunboats will have to be overhauled and several will have to be sent back to New York to be repaired

In the fight between the Spanish under Puello near Neuvitas on the 6th inst., the Spanish lost 200 killed and the patriots 40 killed and 68 wounded The attempt of the Spaniards to send provisions to the starving garrison of Los Tunos, had failed, but the patriots had allowed a small portion of a convoy to go through, with the express agreement that the provisions should be equally divided between the troops and suffering women and children This was violated the troops seizing all the provisions, the result being that several of the women and children died of starvation Another attempt to get a convoy to Los Tunos was made by the Spaniards who placed Cuban ladies both in the vanguard and rear guard Some of the ladies shouted to the Cubans to fire on the Spaniards without regard to them, when a Spanish captain blew out the brains of one of the ladies The Cubans would not fire on the ladies and the convoy got through

A letter from Cuba to the Junta, confirms the defeat and blowing up of Puella's troops at Guaimaro

FORTY FIRST CONGRESS---SECOND SESSION.

WASHINGTON, Jan 20

SENATE

The following bills were introduced and referred

By Mr Casserly—to promote the disposition of public lands in California. It provides that 30 days after the passage of the act the public lands shall be open to entry by homestead and preemption settlers only.

Mr Conkling, from the Committee on Revision of the Laws reported the House Census bill, with an amendment in the nature of a substitute as follows That the Secretary of the Interior be instructed so to change the schedule and blanks to be used in enumerating inhabitants of the United States in 1870 to make the same conform to the Constitution of the United States

Mr Ramsey introduced a bill to establish a postal telegraph and to incorporate the United States Postal Telegraph Company.

The Virginia bill was then taken up

Mr Wilson moved to amend by inserting a proviso that the Constitution of the State shall never be so amended as to deprive any citizen or class of citizens of the United States of the right to vote or hold office, who are now entitled to vote under the said Constitution, except in punishment of crime nor exclude from service as juror any person on account of race, color, or previous conditions of servitude.

The amendment was not agreed to

Mr Drake renewed the amendment previously offered by him admitting Virginia to representation on the following fundamental conditions That the State Constitution shall never be changed so as to deprive any citizen or class of citizens of the right to vote who are now entitled to vote, except in punishment of such crimes as are now felonies at common law, whereof they shall have been duly convicted under laws equally applicable to all the inhabitants of said State

The amendment was debated by Messrs Drake Howard and others at considerable length

Adjourned

HOUSE

The League Island Navy Yard bill was taken up at 1 30 p m The House has been for the last hour entertained by a very spirited review of Mr Dawes' speech on extravagance, by Mr Schofield of Pennsylvania, who intimated that Mr Dawes' opposition to the League Island bill was prompted by resentment against the Republican members from Pennsylvania because they did not prefer him for the Speakership

Mr Dawes (of Mass) characterized such imputation as unworthy of any member

After some personal remarks between Mr Scofield and Mr Garfield of Ohio, in which the latter disclaimed any intention to reflect on the gentleman from Ohio,

Mr Myers of Penn , addressed the House in support of the bill

The morning hour expired and the bill went over until Tuesday next

The House then went into Committee of the Whole and resumed the consideration of Military Academy bill

Mr Schenck of Ohio offered an amendment, which was agreed to, for adding to the Board of Visitors two Senators and three Representatives

The bill was reported to the House and passed

A petition of 22,000 citizens of Utah, praying for the admission of that Territory into the Union was presented and referred

Mr Laflin of New York, from the Committee on Printing, reported a resolution for the printing of extra copies of the Report of the Special Commissioner of the Revenue—5000 for the Senate, 12,000 for the House and 10,000 for the Treasury Department

Charles T Henderson vs Charles T Dole, aplt Action of assumpsit to recover $7 00 left by plaintiff in defendant's hands to pay to C H Dennett. Defendant set up that he had paid the money to Dennett, which was controverted by plaintiff Verdict for defendant

N Wilson	F A Wilson

The Jury was dismissed from further attendance There were six verdicts taken during the term The docket received a very thorough sifting by the Court, and four hundred cases have been disposed of

FIRE At about twenty minutes before one this morning fire was discovered issuing from the cellar windows of the Third Street School House The alarm being sounded the Fire Department was promptly on the ground and extinguished the fire before it had burned through into the rooms above The damage will not be great The fire appears to have been set in a pile of wood in the cellar, to which access must have been had by the windows, as the doors were locked when the fire was first discovered

TIMBER LANDS Our readers will notice in our advertising columns that a large and varied lot of tracts of timber land are offered for sale by the executors of the late Hon Rufus Dwinel, and time is given both to explore and pay for the same A good opportunity is offered to buy in parcels, which is much better for the country than to have the ownership of large territories absorbed by a few men The executors will also sell the mills at Oldtown, the Nichols House, which is a good hotel, in this city, and the very eligible homestead and land on Broadway, belonging to said estate

—We call attention to the removal of Dr Blaisdell to his new rooms, 44 Main Street—It will be seen by his advertisement that the Doctor claims by the "new mode of treatment," to cure chronic diseases speedily, safely and effectually His rooms have been fitted up specially with a view to the comfort and convenience of patients and are furnished in elaborate style He has also added largely to his medical and surgical facilities The front room, looking upon Main Street, is furnished for a ladies' reception room and library the back room is a gentleman's reception room, and contains the Doctor's laboratory

—Maj J H Cochrane, under whose supervision the improvements upon the Custom House and Post Office have been made, is, under department orders, transferred to Portland to complete the United States Court House and Custom House buildings in that city, relieving T. H Oakshott, who is transferred South Major Cochrane has given excellent satisfaction in his work here, and has made many personal friends who will regret his departure.

—The question, Resolved, "That the interests of the country demand a Protective Tariff," will be discussed by the Bangor Literary Association All who desire are invited to be present and take part in the discussion The meeting is to be held in the hall of C B Lakin, Main Street

PUBLIC TEMPERANCE MEETING The Rabom Temperance Club will hold a public temperance meeting this evening at the school house near the City Farm. They hope to have a large attendance

—The store damaged by fire on Wednesday night was fully insured in the Penobscot Mutual, and the Market Insurance Company of New York Fuller Bros., Agent. The loss was slight—$307—and was promptly settled

—Who'll carry off the champion's belt for heavy weight at Auburn to-day?

—A boy playing on the wharf in the rear of Collett's file factory yesterday found about forty dollars worth of files which were stolen from the factory at the time of the robbery last week and returned them to the owner

—Lo, the Poor Indian was in town yesterday, and drinking too much occupee found himself on the wharf at City Point with a bad gash in his head A good Samaritan in the shape of one of our coachmen found him and conveyed him to the Watch House where Dr Morrison attended to his wants

—We presume some of the paunchcous pilots of the Natural Seaport will grace (grease?) Auburn with their presence to-day Bangor sends a Small specimen

—A pile driver is at work driving piles upon which to rest the foundations of the new block to be erected by Messrs. Treat and others on east end Kenduskeag Bridge Its operations afford a subject for observation for the Grand Army of Loafers who are out in full force.

—Skatists report the skating as excellent and the ice is crowded with children of all ages and both sexes who enjoy themselves hugely.

—The boys are enjoying the coasting now to its fullest extent. Spring street, which is the best place for the sport, is crowded nightly with pointers, bobs and every other style of sleds known among the boys.

—It is to be hoped that the Fat Men's Convention to be held at Auburn will not be bellicose in its character

—The Key that gives entrance to our jails and poor houses—Whiskey

It has been the practice for several years of our Masonic friends in Ellsworth to install the officers of their Lodge publicly in their Hall A new R A Chapter having recently been organized it was thought best to have the installations of both bodies at the same time, and in some more convenient place—Accordingly the exercises were held in the new City Hall which is very spacious and convenient, hardly second to any in the State A very large number of ladies and gentlemen estimated at six hundred outside of the order, were present from Ellsworth and the neighboring towns to witness the ceremonies which were very interesting and impressive After the installation a very fine collation was served in the lower hall on which occasion very interesting remarks were made by E W, McFadden, P D D G M (of Kendall's Mills,) Rev Wm H Savary and others After the collation the company returned to the large hall, where the mazy waltz, quadrilles and contra dances—to excellent music—occupied their time till the small hours of morning were upon them, and ever this [illegible] merry as the marriage [illegible]

FAT MEN'S CONVENTION A [illegible] dispatch of the [illegible] says Delegates have come in in considerable numbers to-day, to attend the Fat Man's Convention which meets in this city on Friday Maine will have some good-sized [illegible] while other New England States will be represented One boy of 18, from Massachusetts weighs 300 pounds Miss Hurd [illegible] of the Main [illegible] weigh 270 pounds [illegible]

—A meeting of the Board of Education was held in the Representatives Hall Augusta, yesterday afternoon and addresses were delivered on Drawing and Writing the School District System and the Course of Study for Common Schools

MAINE EDUCATIONAL BOARD At the forenoon session in Augusta on Wednesday the subject of uniformity of text books was discussed

In the afternoon Mr D P Glidden of Lincoln County spoke upon the subject of County Supervision He said the intermediate agent of county supervision was established to bridge the wide gulf between the State Superintendent and the town committees A vast amount of apathy had been removed by this instrumentality The supervisors were obliged to strike out upon untried ground much as did Columbus when he started out to discover the new world Much good had already accrued the schools by means of the county supervision The board of supervisors, with one exception, are laboring in it and they are stirring up the people to become more and more interested

Mr St[illegible] of [illegible] also spoke in the same vein

Mr J B Webb County Supervisor of Cumberland spoke of the advantage of the teachers institutes An essay was then read by Mr Webb on Examination and Certificating Teachers He esteemed the office of teacher the most important and would place his qualifications above all others In the examination of teachers reading should be made prominent Arithmetic is poorly taught—Pupils are drilled on numbers without the idea of object In examining teachers in arithmetic he would place them at the black board and have them explain their system of teaching Geography is wretchedly taught Pupils are confined to the questions and answers in the books without teaching by objects He would have the examination of teachers in this respect more thorough and practical Grammar which should be the last branch to be learned, is now one of the first brought before the young mind He would not have grammar studied before the pupils arrive at 15 or 16 years of age But he would have the child trained at the earliest age in the correct use of language Before granting certificates to teachers, he would understand their proficiency in all branches The teacher should be able to draw lessons of instruction from the thousand objects of nature

A paper on "Home Co-operation was read by G B Hicks Supervisor of Knox county He said that the success of the teacher would depend in a great measure upon home influence

Mr Millett of Hebron, an experienced teacher, said that he had come to this meeting with a prejudice against the system of county supervision, but concluded from what he had heard of its practical working, that the influence of the board had been salutary

The subject of the evening's discussion was on School Government," opened by A H Abbott, County Supervisor of Franklin

—One of the men who was wrecked recently in the ill-fated schooner Mary at Small Point, gave evidence of a presence of mind rarely equaled. A correspondent of the Lewiston Journal says, having been an excellent swimmer, it is supposed he swam nearly half a mile from his two companions, where his body was found. In one of his pockets was found his watch and chain, kept in by the pocket having been stuffed full of oakum above, while in the bottom of the other pocket, similarly filled, was discovered half of a paper collar, on which was plainly pencilled, "Jeremiah Quimby, Boothbay" This was rolled up in a covering of black [illegible] securely tied with a piece of twine As was intended, this served to identify his body and through him the other two The vessel was only slightly injured, and had they remained by her, she would have preserved their lives, though she had dragged her anchor and was apparently about to be dashed to pieces

—The Augusta Journal says that Rev H F Wood has returned from New York and Boston with 500 volumes of books to be added to the library at the U S Military Asylum in Chelsea The collection comprises history, biography fiction and books upon subjects connected with the naval and military history of the country

—A very fine passenger car is nearly completed in Waterville for the Maine Central Railroad Its length is 45 feet. The inside finish is nearly all of white ash They have a new process for planing this kind of timber so that it is very ornamental When completed the passenger car will be one of the largest on the road

—Gen Henry Boynton Pension Agent in Augusta, is preparing a proposition to submit to the proper authorities for a change in the pension laws which will effect a great saving of expense to the government

REPUDIATION IN IOWA A number of towns and counties in Iowa did [illegible] subscribe to the stock of the certain projected railways obtained from the Legislature of that State a few years before the late war a general act authorizing them to incur debt for this purpose After a long legal contest the Supreme Court of the State decided the act to be valid and the subscriptions were made Many of the railroads have been built and the towns in question have had the benefit of them [illegible] but the bonds are still a heavy burden on the tax payers In other cases the roads were never built at all or were of no use when built and the bonds were thrown away becoming the prey of swindling projectors

Many of the counties and towns failed for some years to pay the interest on the debt The bondholders brought suit and the case went [illegible] to the Supreme Court of Iowa which now reverses its former decision and pronounced the debt illegal and the bonds worthless The bondholders carried the case to the Supreme Court of the United States which decided the claims to be valid [illegible] [illegible] collection by [illegible]

Under these circumstances a large number of delegates from the various defaulting towns and counties met a few days ago in Muscatine and resolved to resist the collection of this debt at all hazards By what authority they claim jurisdiction on the appeal from the Supreme Court of the United States or under what form they propose to [illegible] the United States we have not learned but so far as words can go they are in open rebellion against the National government The result will probably be an enforced and delayed payment out of the property of the towns of the whole debt but how much of it will go to the [illegible] the bonds [illegible] [illegible]

SAWS!

CIRCULAR SAW,

With Movable or Inserted Teeth

We claim for our Patent Circular Saw the following advantages over all others

The shanks of the teeth are elastic and exert a uniform distension in the sockets

The stability of the plate is in no way affected by inserting new sets of teeth

Each tooth, independently may be adjusted to the cutting line

No rivets keys or other objectionable appliances are employed in connection with the teeth which are as simple in construction, and as easily used as a nut for a bolt

In short all the difficulties heretofore experienced in the use of movable teeth for saws are fully met and obviated by this invention

BANKERS

AND DEALERS IN

GOVERNMENT SECURITIES

No 5 Nassau Street, New York November 8, 1869

To our Customers and Correspondents

The surprising development of our national resources and the rapidity with which the government is now enabled to reduce the national debt, by weekly purchases render it apparent that the time is approaching when the Five Twenty bonds may be funded at not over four or four and a half per cent interest

Meanwhile their high price, as compared with other classes of securities paying an equal rate of interest is leading to general inquiry for more profitable forms of investment in which money may be safely invested

During the war the necessities and peril of the government, and the consequent cheapness of its securities rendered them so attractive that, from this cause, combined with the patriotic faith of the people in their safety they absorbed almost the entire floating capital of the country, and diverted attention from other classes of securities which had before been deemed sufficiently conservative and sound to meet the wants of the most cautious investors

The government is no longer a borrower It no longer needs the country's capital but desires gratefully and honorably to repay it

The rapid accumulation of capital for investment and the reduction of the national debt and improvement of the national credit—rendering it certain that hereafter but a comparatively low rate of interest can be derived from investment in government bonds—is compelling the search for other safe and well guarded channels into which capital not employed in business may wisely flow

The desire to capitalize the premium which may now be realized upon Five Twenty bonds and which a material decline in Gold toward par and the ability of the Government to fund them at a lower rate of interest may at any time extinguish, is felt by many holders who desire some satisfactory assurance as to which of the many lower priced securities in the market would afford the necessary safety to justify an exchange.

The application for information and advice which are addressed to us daily, show how universal is the desire for this assurance, as to what forms of investment more profitable than Government securities at present market rates are entitled to the confidence of investors

The pressure of this want has led us to feel the importance of directing our attention as bankers our large experience and our facilities for obtaining reliable information—to the work of supplying it in some measure and to offer the results of our inquiries to those who may be disposed to confide in our good faith and judgment

We are unwilling to offer to our friends and the public anything which according to our best judgment is not as secure as the national obligations themselves, with which we have hitherto principally identified ourselves

Since closing the GREAT CENTRAL PACIFIC RAILROAD LOAN which meets all these requirements, we have carefully examined many others but have found no other which would fully do so until the following was placed in our hands

FIRST MORTGAGE

6 PER CENT GOLD BONDS,

OF THE

Western Pacific R. R. Co.,

OF CALIFORNIA

The Western Pacific Rail Road connecting Sacramento with San Francisco, furnishes the final link in the extraordinary fact of an unbroken line of rail from the shore of the Atlantic to that of the Pacific

It is 150 miles in length including a short branch and it will be the

METROPOLITAN LINE,

OF THE PACIFIC COAST

connecting its chief cities, and traversing the garden of the rich and growing State of California receiving in addition to an immense and lucrative local traffic the through business over the Union and Central Pacific Railroads—between the Eastern States and Sacramento

It is completed, fully equipped and in successful operation and its earnings in October the first full month, amounted to $105 000 in coin The net earnings will, by a moderate estimate amount to $600 000 per annum In coin, while the interest on its Bonds will be but $168 000

The value of the property and franchises is no less than

TEN MILLIONS OF DOLLARS,

and the amount of the mortgage is

$2,800,000.

The bonds are of $1 000 each have thirty years to run, and will be sold at

NINETY, AND ACCRUED INTEREST,

in currency. They are made payable PRINCIPAL AND INTEREST, IN GOLD COIN, in the city of New York Coupons due January and July 1st

The near approach of the time when the United States can probably fund the greater portion of its Six per cent debt, is naturally causing inquiry for other forms of investment, which will afford satisfactory security with the same rate of interest THE WESTERN PACIFIC RAILROAD FIRST MORTGAGE BONDS must have an immense advantage over all other securities based upon merely local or incompleted railroad and may be held with as much confidence as government bonds, or as first class mortgages on New York City property

The loan is small in amount Its claims to confidence are apparent It will be rapidly taken Bonds will be delivered as the orders are received

Government bonds received at their full market value in exchange

FISK & HATCH, Bankers

We buy and sell Government Bonds and receive the accounts of Banks, Bankers, Corporations and others subject to check at sight, and and allow interest on daily balances

POETRY.

WATCHWORDS OF LIFE

Hope,
While there is a hand to strike !
Dare,
While there is a young heart brave !
Toil,
While there's a task unwrought !
Trust,
While there's a God to save !
Learn,
That there's a work for each !
Feel,
That there's a strength in God !
Know,
That there's a crown reserved !
Wait,
Though 'neath the cloud and rod !
Love,
When there's a foe that wrongs !
Help,
When there's a brother's deed !
Watch
When there's a tempter near !
Pray,
Both in thy word and deed !

MISCELLANY.

TRUTH ABOUT KEEPING POULTRY. We may talk as much as we please about hens laying well, about this breed or that, or this kind of food or stimulant; unless care is taken of the hens, it will amount to little Hence, there are a hundred theories afloat, each contradicted, and each having its merits, but success always goes with good treatment. Neglect your hens, of whatever breed, and you will not find them a remunerative investment It is true the Brahma will lay in winter even if left to itself with only the run of the barn, and with rather scant food at that This may, perhaps, be called an exception to the general rule So a few of the 'laying' sorts may do well during the summer with the range of the field If this range is a good one, with more or less of grain to profit by, the ordinary breed will do well. It will even become distinguished by good treatment, and we know that it will lay the year round with the proper care, with quarters making summer and in winter.

In this section there is a variety of fowls — the Brahma, the Black Spanish, Bolton Gray, Pheasants &c., and also a mixture of these with the common breed and with each other, the result is that, with care, they are all doing well Those that are neglected are not doing well, whatever the breed. On equal conditions, some breeds, in some respects, excel others The good breeds. when well taken care of are better than the common. But the case reversed, the poor blood will triumph. So that on the whole, the difference is not so much as we are led to believe You can make your fowl good So you can make a crop of grain or a fine bullock to take the premium But this is not what is wanted It wants to be known whether there is profit in keeping hens, kept without extra care. And this question can be answered by saying yes, a small profit. Get good stock and keep well—not fat, but in good condition, with comfortable quarters—and there will be no difficulty You get a fair remuneration as you do in the various operations of the farm, as you do with trees or other adjuncts of the premises But do not expect to get rich at once, you will only fail if you undertake it, as hundreds are failing constantly

There is something in a breed, but not so much as we imagine—not so much as in good treatment independent of the breed. The two together do well. So does good farming, good anything

We must come off our stilts of getting rich in this or that business suddenly. The very wish is an error Moderate, sure profits are the way to success [Utica Herald

Two quarts of hot water, one pound of Indian meal, and a quarter of a pound of unbolted wheat flour, will make more eggs when fed warm to hens than twice the amount of whole grain

HOW TO KEEP CIDER SWEET. Put the cider, fresh from the press, into large kettles, copper or brass are best, as iron will color the cider Boil and skim until all the small pomace or other impurities have been thrown off Have ready clean, tight barrels, kegs or other vessels that can be sealed air tight, pour the cider into the vessels boiling hot, seal it up at once, and place it where you design having it remain, before it cools In this way I have kept cider just as sweet and nice as was when running from the press, for two years, and I know no reason why it should not keep for many years if carefully sealed

We have followed this process every year for more than twenty years—have frequently used the same barrel for several years, by scalding the inside, putting a little soda or other alkali in the water We have often used a decoction of tea made by boiling sassafras roots and rinsing the barrel with it This gives the cider a pleasant odor and flavor, and many prefer it [Cor Country Gentleman

MIXED HUSBANDRY The farmer who devotes all of his land to two or three leading crops, will certainly make money when the seasons are propitious, and the demand is active for the products. But it often happens that one or more of these conditions are lacking and then the labor and means expended during the year are measurably lost—or, negatively stated the profit is not sufficient to compensate for the outlay By the system of mixed husbandry the farmer may not, it is true, be able to derive immense profit from single crops, but it seldom happens that all of the crops will fail and the profits accruing from the different sales will well repay him—especially when it is considered that, if he has additional labor, he is saved from the weight of care and anxiety that oppress those whose hopes are all dependant on the success of their wheat or corn, or other single crops But every one must judge which system is best adapted to his means, and the circumstences surrounding him.

POOR GROUPING. We heard a good one the other day—all the better because it is true—concerning Fisk and Gould, of the Erie On one of the boats running from New York to Boston, hang, side by side, large elegantly framed photographs of James Fisk and Jay Gould, the one Manager and the other President of the Erie Railway

Fisk was on board, and happened to meet a New England gentleman of wealth named Traverse This Fisk is somewhat vain, that is he has a good many veins in his body, and took more than ordinary pride in showing Mr. Traverse—who by the way, is a terrible stutterer—the splendors, attractions and novelties of the boat. At last they came to that portion of the boat where the photographs were hung, when the following dialogue ensued

Fisk, Jr—Mr. Traverse, what do you think of those pictures? They are said to be the finest specimens of photographic art produced. I don't mean what you think of the persons, of course; but as specimens of art what do you think of them?

Traverse—W-w-w-well, the-e-y a-a-are ab-b-bout as fi-i-fine p-i-c-t-tures as ever I s-s-saw

Fisk, Jr—Yes they are splendid pictures, splendid.

Traverse—Y-y-yes, t-they are fi-i-fine s-s-specimens of ph-ph-photographic art, b-but it s-strikes me t-t-that the grouping is a l-l-little at f-f-fault.

Fisk, Jr—The grouping? They are not grouped at all, as I see, only hang up side by side

Traverse—W-w-w-w well, t-t-that's t-the tr-tr-tr trouble. If t-t-there was a p-p-picture of the Saviour on the c-c-cross be-tween the t-two, the g-g-group w-w-would b-b-be c-c-complete.

The only one around who did not laugh at the joke was the Prince of Erie.

HOW TO PAINT STOVES. A writer in an English magazine proposes, instead of black leading stoves and grates, that they should be painted with water glass (silicate of potash,) coloring with pigment to harmonize with the coloring of the apartment. Before this is applied the iron must be thoroughly cleansed from grease, and all rust must be rubbed off with a scratch brush. Two or three coats of the paint may then be put on and allowed to dry, after which the fire may be lighted with out fear of injury to the color, which may, indeed, be exposed to a red heat with impunity Grease or milk spilt over the paint has no effect upon it, and it may be kept clean by washing with soap and water. Dutch ovens and other similar utensils may also be coated with the same material, and the labor ... may thus be saved. ... this paint will last a year

Read the following certificate from Deacon JOHN HODGKINS of Jefferson Me.

SOUTH JEFFERSON ME

In May 1860 our agent met with Deacon John Hodgkins of South Jefferson Me who related the following astonishing cure effected by Johnson's Anodyne Liniment He said —Some time ago my son was taken sick with a serious lung difficulty which threatened to end in quick consumption We immediately summoned our family physician who attended him faithfully for about four weeks during which time he gradually grew weaker Becoming very much alarmed about himself and being satisfied that he was growing worse all the time he finally refused to take any more medicine from the physician and expressed a wish to try Johnson's Anodyne Liniment I immediately told the physician his expressed wish ... that I would object to his using it but ... he said Let him try it It will not hurt him and may do him some good

He did try it and continued its use ... taking it inwardly and bathing the chest and lungs outwardly Very soon he began to improve gradually gaining strength until at last we had the satisfaction of knowing that the foundation of his disease was broken up

My son is alive and well to day possessing a strong and vigorous constitution which we attribute under God to the use of Johnson's Anodyne Liniment I can further say that I never ... all ... the article ... the best family medicine in the world

KIDNEY COMPLAINT

This most distressing disease ... is prevalent within a few years and is proving a destroyer of human happiness and in some cases of human life It is not confined to old or middle aged but is quite as frequent among children and young people as any other class One of the most effectual medies known for this dreadful complaint is Johnson's Anodyne Liniment It has never failed as yet as we have abundant proof to show We refer with pleasure to the following letter from H D E Hutchins Esq a gentleman and a ... well and thoroughly known in Fryeburg, Oxford County Me where he resides

FRYEBURG Me ... 18 ...

MESSRS I S JOHNSON & Co

Dear Sirs —In the fall of 1866 I was attacked with a violent pain through my back and kidneys which laid me up for more than a year I consulted the best physicians in the county and Portland Some pronounced it kidney, some spinal disease After being under their treatment six or eight months and receiving no particular benefit I was advised by a friend to try your liniment. On taking part of a bottle it brought away, in my water something similar to the *filings of steel,* which relieved me in part and, by continuing to take it for three months or more, I was completely cured. I most heartily recommend it as the best family medicine I ever used With pleasure I send you the foregoing statement You can make such use of it as you think proper

Respectfully yours
H D HUTCHINS

The foregoing statement may be relied upon not only as coming from a gentleman who thoroughly understands his own case, but one who has sold and watched the operation of our liniment for more than *twenty five years*

EARACHE

Put in two or three drops of Anodyne Liniment stop the ear with undressed wool, bathe the feet in warm water on going to bed and keep the head warm at night

Sick Headache, Nervous Headache Dizziness spells of Blindness, &c., may be cured by a box of Parson's Purgative Pills which only costs twenty five cents.

SPINAL DISEASES CAN BE CURED

Don't fail to read the following statement of facts,—

Remarkable cure of a most obstinate case of spinal difficulty effected by Johnson's Anodyne Liniment.

Farrington in relation to his difficulty, they are invited to address him The above statement is entitled to great consideration on account of the nature of the case, and coming, as it does, from a man whom we all know to be of undoubted reliability

CASTING BREAD UPON THE WATERS, AND WHAT CAME OF IT

Some time since, a stranger came into our office to sell something We do not remember what but noticing that he had a bad cough, we gave him a bottle of our Johnson's Anodyne Liniment for which he thanked us and departed As he was a stranger in our city and a man we never saw before, we had no expectation of ever hearing from him again, but to our surprise about a fortnight later, we received the following well written letter for which we take this opportunity to thank the gentleman, hoping that this may sometime meet his eye

UNITED STATES HOTEL
PORTLAND, ME, Aug 17

Dear Sir —I beg to tender you my sincere thanks for the bottle of "Anodyne Liniment" which you gave me and which has cured me of that troublesome and dangerous cough which excited your sympathy I trust the remedy will become still more widely known than it is and do a world of good

With sincere respect I have the honor to be yours truly F DWIGHT KENDALL

FROM A MASSACHUSETTS PAPER.

We cut the following statement, some years ago—Facts Worth Knowing—Johnson's Anodyne Liniment is superior to any other Liniment or Pain Killer in the world It is equally efficacious, whether taken internally or applied externally

It will cure Coughs or Hoarseness
It will cure Whooping Cough
It will cure Influenza
It will cure Bronchitis
It is the best article that can be taken for Bleeding at the Lungs or Spitting of Blood
It will in most cases cure Cramp
It will cure Chronic Diarrhœa
It will cure Dysentery of long standing
It is a sure cure for Bloody Dysentery,
It will cure Lame Stomach
It will cure Pain in the Stomach or Bowels

It is a sure cure for Kidney Complaints of recent date and will relieve those of long standing, it will also *cure diseases of the Spine* And, from its great Cleansing and Healing properties, it is the best medicine that can be applied to a Fever Sore

It is the best outward application known for flesh wounds sprains bruises swollen or stiff joints

It stands upon its own merits, and is warranted to be the best family medicine ever discovered

CHRONIC DIARRHŒA.

The following statement of William Clark, Esq is entitled to great credit having come to us fully attested and sworn to, without any solicitation on our part or even knowledge that such a thing was in contemplation

MR I S JOHNSON Dear Sir,—I was attacked with the Diarrhœa in the year 1848, and tried all of the many medicines that was recommended to me for that complaint, but they had no effect whatever I then applied to different doctors, both in this State and in Massachusetts They could not help me I was reduced to most a skeleton, and through the kindness of Providence, I was told of your Anodyne Liniment I commenced taking it in the Spring of 1852 and found it helped me, so I continued to use it until I had taken nine bottles I am now perfectly cured and over fifty pounds heavier than last summer I give you these lines that you may publish them if you see fit, for the benefit of the suffering community I think it one of the best medicines that the world affords If any one should think this a humbug please inquire of my neighbors for there are plenty that will testify to the truth of it ... I purchased the Liniment of Mr A Merrill of this place The undersigned would further testify that he thinks the Liniment was the whole means through the blessing of God, of saving his life I weighed in the spring of 1852 a hundred and twenty pounds I now weigh a hundred and ... pounds and a half

Yours Truly WM CLARK

TWENTY FIVE YEARS' EXPERIENCE

NEW GLASGOW, N S, Aug 1, 1862

This is to certify that I have been acquainted with Johnson's Anodyne Liniment for twenty five years, during which time I have both sold and used it in my family I have no hesitation in saying I consider it an excellent family medicine I think it unequalled in Whooping Cough In recommending it, I am not only doing an act of justice but, I feel confident, an act also of humanity

In using it for Coughs I generally combine it with something to act on the liver and bowels (Parson's Purgative Pills)

CHRONIC DIARRHŒA.

CAN BE CURED BY JOHNSON'S ANODYNE LINIMENT

Read the following certificate from one of our own most respected fellow citizens —

BANGOR, Feb 29, 1862

MR JOHNSON Dear Sir,—For more than two years I have been afflicted with that distressing complaint Chronic Diarrhœa, have been treated for it by some of the best physicians in this city and other places, but without any good result, had lost my appetite lost my strength not able to perform any kind of labor and found I must soon be a burden to myself and to my family About three months since I was urged by a friend to try Johnson's Anodyne Liniment and did so without much hope or expectation of being benefitted, but I must say, as soon as I began to take it I began to feel better, and I am now well and strong, can eat my allowance of most any kind of food without causing me any distress We have used it in our family for colds and Internal Pains, and I do think it the best family medicine I ever saw I live on Fourth Street in the city of Bangor and would be glad to tell anybody how much benefit I have received

Dr. PARSONS'

PURGATIVE

PILLS.

For the Cure of a great variety of Diseases, arising from the Impurities of the Blood, and Obstructions in the Organs of Digestion.

The only cathartic that will relieve the bowels, cleanse the blood, and renovate the system effectually without causing those horrid griping pains, and leaving the bowels in that torpid, costive state, which is true of most cathartic medicines now offered for sale These Pills are not (like most others) composed of antimony, quinine, mercury, and calomel, but of cathartics used and approved by all good medical practitioners

These Pills may be used in all forms of disease, with the most decided benefit, and without fear of injury They do not cramp or rack the delicate frame or weak constitution, but will be found particularly useful by stimulating the weakened and distempered parts into healthy action

The most delicate female, and children of the tenderest age, can take these Pills with perfect safety, and the most salutary results will follow Married ladies, under all circumstances, will find these a safe, and in small doses, a mild cathartic

They do not make the weak weaker, but give strength and tone to the digestive organs

ALL WHO NEED PHYSIC, TAKE P. P. PILLS.

If your system is in an unhealthy state, two or three Parsons' Pills will bring it round all right

Parsons Pills are the best known remedy for Constipation of the Bowels, Inflammation of the Kidneys, Nervous Headache, Sick Headache Irregularity, Costiveness, Biliousness, Dyspepsia, Indigestion Female Obstructions, Whites Influenza, Loss of Appetite and Loss of Strength

FROM THE "MAINE FARMER"

Parson's Purgative Pills are a safe wholesome vegetable, and natural medicine, and may be relied upon as being the best Anti bilious medicine in existence

Let the reader reflect that *Parson's Purgative Pills* are now manufactured and sold by the proprietors of Johnson's Liniment, an article that has reached a larger scale and more extended popularity than any other medicine known, and any attempt on their part to build up a reputation for a worthless article would blast their reputation as compounders of medicine and ruin their prospects, both in regard to the Liniment and everything else for which they seek the favor of the public

Acting with this view we have been scrupulously particular not to say any thing in favor of our medicines which the facts in the case do not warrant

PARSONS PURGATIVE OR ANTI BILIOUS PILLS

Notwithstanding the great variety of Pills now in the country, a necessity has long been felt, and freely acknowledged, both by physicians and families for a safe and reliable Anti bilious Pill —something that should be free from mercury and every mineral or deleterious substance and be really safe to administer to infants or the most delicate patient To meet this demand, *Parson's Purgative Pills* were compounded, every property of which has been carefully analyzed by experiment and scientific investigation Thus they are believed by physicians and people, wherever they are known, to be the safest surest, and most desirable family pill in the country Notwithstanding they are so mild in their operation causing no griping pains, they are composed of powerful vegetable substances, and will be found to be sufficiently searching and active to cleanse out the obstructions in the most robust constitution *Parson's Purgative Pills* also have the best effect on the Liver of any medicine yet discovered at the same time they help the Kidneys, relieve the Lungs, and cleanse the Blood of all impurities also equalizing its circulation, thus preventing cold surface and limbs, or undue heat and congestion, either inside or out, It is as plain as 2 and 2 are 4 that what is required in a family Pill is one that will reach with effect to produce proper excretion and open all the natural drains *Parson's Purgative Pills* will do this with promptness and fidelity and no physician's prescription could do more Many people suppose that the Bible declares money to be the root of all evil, but it is not so,—it is the love of it which is spoken of But don't love your money so as to keep you from buying a box of *Parson's Purgative Pills,* when by so doing, you may avert much pain and lingering distress and perhaps save a *life.* Our advice is to keep them constantly on hand, as you may by their use break up fevers or crop in the bud those symptoms which might otherwise result in long and weary sickness

CHAPPED HANDS —Rub them well at bed time with Anodyne Liniment and wear leather or kid gloves during the night, for chapped lips, apply it with the finger

VALUABLE TESTIMONY

IN FAVOR OF SHERIDAN'S CAVALRY CONDITION POWDERS

We regard the following as the most valuable testimony which we have to produce to show the superiority of our Powders over all others, and ... of giving them freely to horses that labor hard ...

Our travelling agent called upon Messrs Pope & Co , lumber merchants Machias Me and tried to sell them some of our Sheridan Powders, but they refused to buy them, stating that they did not believe that they were ... and secondly, that they had some of a ... on hand, which they could neither use or ... on account of their worthlessness Our agent ... it important that they should have ... ... that they employed a large number of horses in their business) proposed to leave them ... (3) ... with the understanding that they should try them and, if not *entirely satisfied,* they were to pay nothing for them The Messrs Pope & Co accepted the proposition, and took the Powders In ... months after, our agent again visited them ... they cheerfully paid for the three (3) dozen ... additionally, and bought five (5) dozen ... In December following, just twelve months from leaving the first three (3) dozen, on his visit to the Provinces, our agent sold them *eight* more, making SIXTEEN (16) dozen sold them for cash, in just one year We avail ourselves of this opportunity to publicly thank the Messrs Pope & Co for their generosity in permitting us the use of their names, for certainly there are none better or favorably known and none that would be of more advantage to us in point of influence

AN HONEST DOUBTER CONVINCED

In February, 1866, our agent called upon Capt Charles Sager who keeps the largest livery stable of let horses in the city of Portland Me to sell him a sample dozen of our Sheridan's Cavalry Condition Powders, but the captain refused to buy, and would not even receive them on trial, with the option to pay or not as he ... remarking that he could make a Condition Powder himself that would answer his purpose ... had some of another kind on hand, that he ... casionally So our agent contented himself with putting up a poster in his office, gave him a package of the Powders, and departed Just one year after Capt Sager went to the City Hotel, met our agent and, without solicitation, bought for cash ... of the Cavalry Powders, and volunteered the use of his name, in any way that would tend to enlarge their field of usefulness

All who know Capt Sager, and ... will unite with us in saying ... of the most candid, reliable, and gentlemanly men in the State of Maine, and his opinion on this as well as on other subjects in ... with horses is entitled to great consideration

WHAT THEY ARE FOR

"Sheridan's Cavalry Condition Powders should be given to horses in all cases for Loss of Appetite, Roughness of the Hair, Stoppage of Bowels or Water, or Thick Water, all Coughs and Colds ... Throat, Worms, Horse ail Hide bound Thick Wind and Heaves They are equally good for cases of horned cattle and sheep young horses fitting for market may be greatly ... and very much enhanced in value, by the ... powders

Old horses, almost worn out and appearing ... less, may be rejuvenated, and made to ... double amount of service by the use of the Cavalry Condition Powders " Most horses ... worms, and, while they exist in a horse he cannot thrive the food that should strengthen him ... the animal is absorbed by the worms horse will have a great appetite and ... grow poor

SYMPTOMS —Hide bound, coat stares, ... and glaring, great appetite &c " Sheridan's Cavalry Condition Powders " will positively relieve the worst cases

There is no man or set of men, that can ... Powders on a horse, no matter how (apparently) ... he may be, without admitting that the horse has been benefitted many times the value of the ... ders given In support of the above statement we ask attention to the following —

The undersigned, having experienced great benefits resulting from a frequent use of Sheridan's Cavalry Condition Powders " for horses ... permit the use of their names in recommending them to be (in their opinion) the ... kind now in the market

FROM THE HON JOSIAH FARWELL MAYOR OF THE CITY OF ROCKLAND, ME

In July, 1866, our agent met with the Hon ... Farwell at the Eastern Hotel, Machias ... way to Pembroke He remarked that his horse had not been well during the day, and had many signs of giving out. In the evening the horse was much worse, and showed symptoms of ... page of water, our agent gave Mr Farwell a package of our Sheridan's Cavalry Condition Powders He gave the horse a good dose that night and next morning he departed with his horse ... well We heard no more of the matter till the following May, when our agent met Mr Farwell at his home in the city of Rockland, Me when he remarked that the Powders, he had received ... horse a great deal of good, that he had given them frequently since, and always with gratifying results, and that he regarded them as the best Condition Powder in the country, and very kindly said if his name would be of any service to us we were welcome to use it. Mr Farwell's address is Rockland Me and for a verification of the foregoing plain statement of facts, any person is at liberty to address him.
